

Aberarder Local Fund

Have your say

We are establishing a new community benefit fund for communities hosting new transmission infrastructure associated with the Aberarder Wind Farm Connection. The fund is aimed specifically at communities close to the project infrastructure.

Help design the new fund

We are hosting several drop-in events to share more information and find out what local communities want the fund to look like.

This is an exciting opportunity to shape key elements of the new fund – including the projects or activities that will be **eligible for funding, how long the fund will run for** and the **amount of funding available per year**.

All community members who live or work in Strathnairn are invited to come along to an event to find out more and tell us what matters most to you.

Join us at an event to meet the team and share your views. We'll share a short presentation near the beginning of each session, but feel free to join at any time – there is no need to register.

If you have any questions or accessibility requirements, please get in touch at

community.benefit@sse.com

Drop-in consultation events

- **Farr Community Hall**
Wednesday 28 October
9.30 - 12.30pm
- **Daviot Hall**
Wednesday 4 November
3.30 - 7pm
- **Farr Community Hall**
Thursday 5 November
3.30 - 7pm

Online event and survey

Monday 9 November
7pm – 8pm
